**RE: Second Quarter 2020 Project Report
Former Washtenaw Industrial Facility
Saline, Michigan
EPA ID: MID 980 795 512**

Dear Ms. Onyszko:

As required by the Administrative Order on Consent for the Former Washtenaw Industrial Facility (the "site"), three copies of this letter are being submitted on behalf of Adient US LLC ("Adient") to provide the U.S. Environmental Protection Agency ("EPA") with a progress report for activities performed during the second quarter (April through June) of 2020.

1. Actions Taken During The Previous Quarter to Comply with the Consent Decree:

- On April 7, 2020 water level data and analytical results for monitoring wells (including the recently installed intermediate aquifer wells) were posted to the EPA SharePoint site.
- On April 21, 2020 additional groundwater sampling data and laboratory reports were posted to the EPA SharePoint site.
- On May 6, 2020 Adient representatives participated in a conference call with EPA and EGLE personnel to discuss site activities including the recently posted analytical results.

2. Summary of Data and/or Results of Sampling and Tests Received:

- Groundwater sampling results (including raw laboratory data) and water level information was posted to the EPA SharePoint site on April 7, and April 21, 2020.

3. Work Plans, Plans, and Other Deliverables Completed and Submitted to EPA During the Previous Quarter:

- Not applicable for this reporting period.

4. Actions, Data Collection, and Implementation of Work Plans and Other Information which are Scheduled to be Performed During the Next Three Month Period:

- Water levels will be collected for all site groundwater wells (including the intermediate aquifer wells). Site wells will be sampled for contaminants of concern following collection of water level data.

- The Soil Vapor Investigation Plan, approved by EPA, will be implemented upon City of Saline approval of the associated traffic control plan.

5. Problems Encountered, Anticipated Problems, Actual or Anticipated Delays, and Efforts Developed or Implemented to Mitigate Delays:

- The previous quarter saw considerable difficulties related to the COVID-19 pandemic, including business and governmental facility restrictions and closures. These difficulties continue and are reflected in reduced operating schedules and personnel availability.

6. Modifications to Work Plans or Schedules Proposed to EPA or Approved by EPA:

- Not applicable for this reporting period.

7. Community Relations Activities During Previous Reporting Period or to be Undertaken During Next Three Month Period:

- Not applicable for this reporting period.

If you have any questions or need additional information regarding this quarterly report, please contact me at (248) 560-0715

Respectfully,

CTI and ASSOCIATES, INC.
